ABOUT US

We are **REVAMPERS**,
a six-member design team specializing in structured UX, brand refinement, and digital experience strategy. For this project, we combined research, visual design, and usability principles to deliver a complete preproduction plan ready for development.

THE OPPORTUNITY

WHY WE CHOSE THIS WEBSITE

- Outdated visual identity
- Weak trust perception
- Aggressive tone over safety messaging
- Limited representation of diverse audiences
- Unclear information hierarchy

We saw an opportunity to modernize trust, clarity, and user flow.

Project Objective

Modernize **the visual identity**

Strengthen **trust & credibility**

Prioritize **safety-first hierarchy**

Improve **navigation clarity**

Expand appeal across **diverse audiences**

Deliver a structured, professional, and user-centered experience.

Target Audiences

Beginner Shooters

Emily Scott

- Needs strong safety reassurance
- Prefers guided learning pathways
- Looks for welcoming environment
- Easily overwhelmed by clutter

Experienced Shooter

David Miller

- Values efficiency & quick booking
- Competitive mindset
- Interested in performance tracking
- Expects structured layout

Corporate / Group Clients

Alex Carter

- Seeking professional experience
- Needs simple event booking
- Expects credibility & organization
- Prioritizes clear information

Core Strategy

Trust-First Design

Visible safety messaging

Clear supervision indicators

Professional visual tone

Transparent booking structure

Structured User Flow

Simplified navigation

Reduced visual clutter

Clear content hierarchy

Fast access to key actions

Audience Segmentation

Beginner-friendly guidance

Competitive shooter features

Group booking pathways

Distinct calls-to-action

BRAND & VISUAL DIRECTION

Moodboard

Trust and professionalism

Safety-forward environment

Inclusive representation

Clean outdoor credibility

Balanced strength without aggression

"This mood direction repositions the brand from aggressive and outdated to welcoming, structured, and safety-centered."

BRAND & VISUAL DIRECTION

Brand System

"The brand system was developed to reposition the range as professional, structured, and safety-focused while maintaining its outdoor identity."

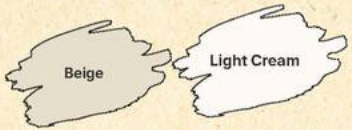

COLOR SYSTEM

Trust & Authority

Stability & Outdoor Context

Warmth & Balance

TYPOGRAPHY

Heading Font: **DIN Condensed**

Strong, bold presence to reinforce authority

Body Font: **Inter**

Clean and highly readable for digital content

Clear hierarchy supports safety messaging

Optimized for mobile responsiveness

LOGO & BRAND ALIGNMENT

New logo system reflecting modern positioning

Clean, confident typography for authority

Simplified iconography for digital clarity

Balanced outdoor identity without aggressive emphasis

Scalable across digital and print applications

UX STRUCTURE & WIREFRAMES

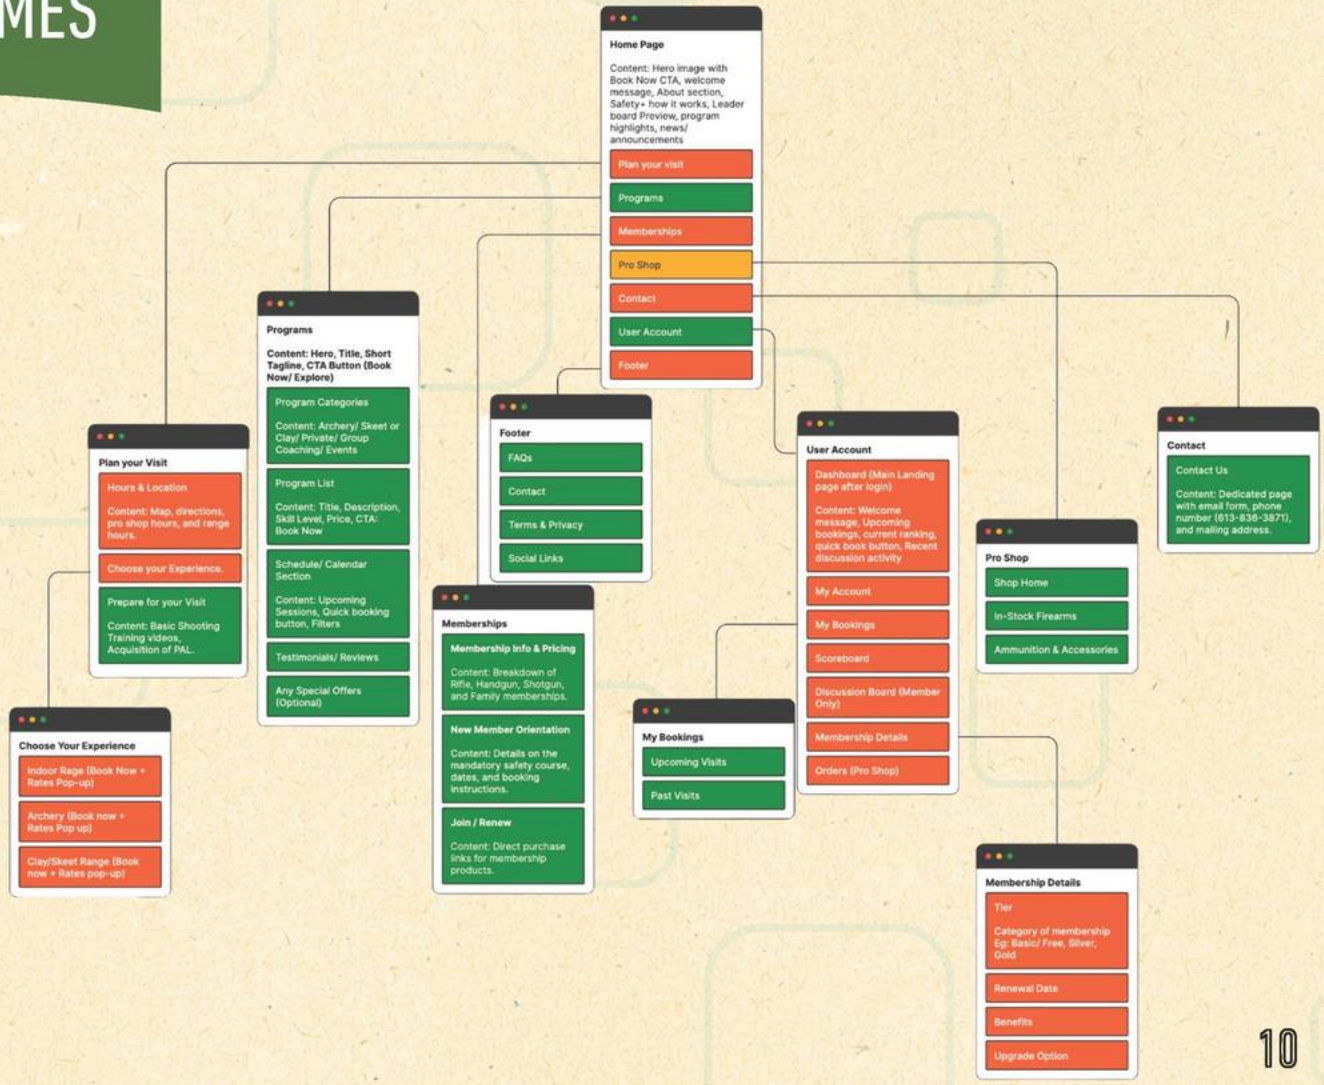

Information Architecture

Clear top-level navigation

Logical content grouping

Separation of audiences

Booking as priority pathway

UX STRUCTURE & WIREFRAMES

Low-Fidelity Wireframes

Establish layout hierarchy

Prioritize safety messaging placement

Define booking call-to-action positioning

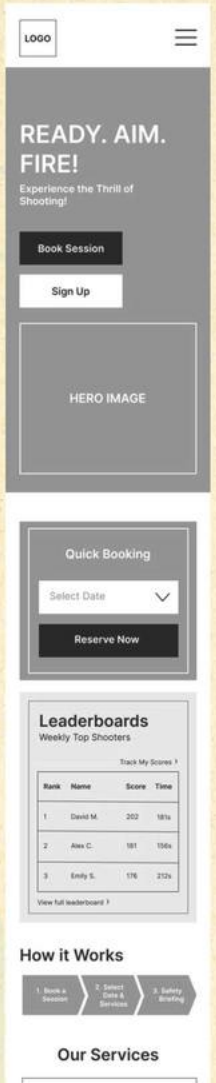

Test navigation clarity before visual design

Separate audience pathways early in structure

Desktop

Mobile

UX STRUCTURE & WIREFRAMES

High-Fidelity Mockups

Safety-first visual hierarchy

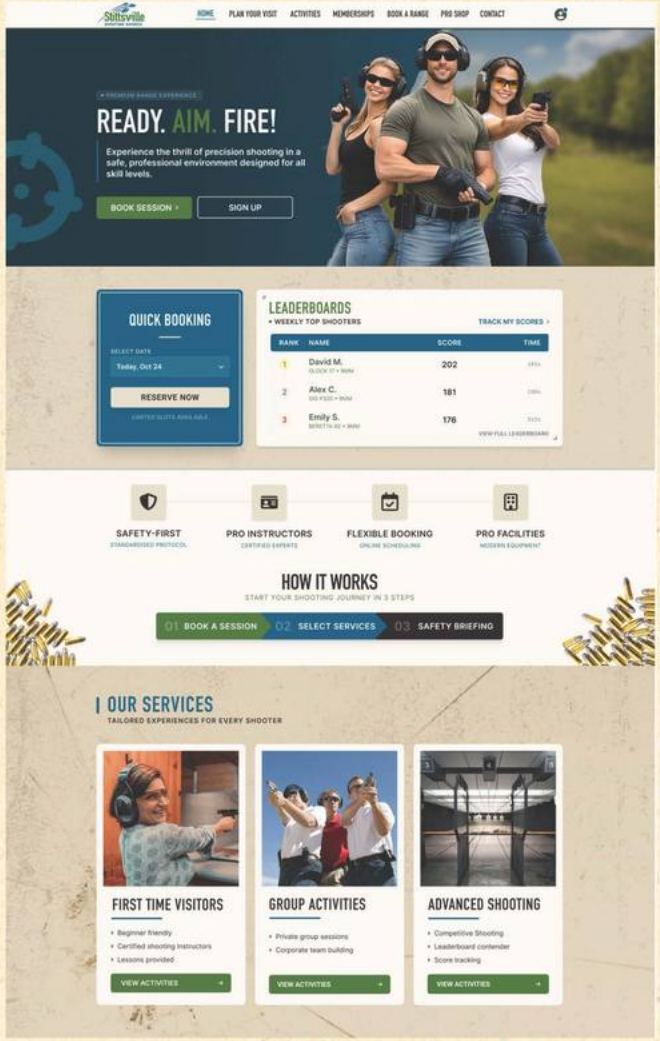

Elevated brand tone and credibility

Integrated clear booking call-to-action

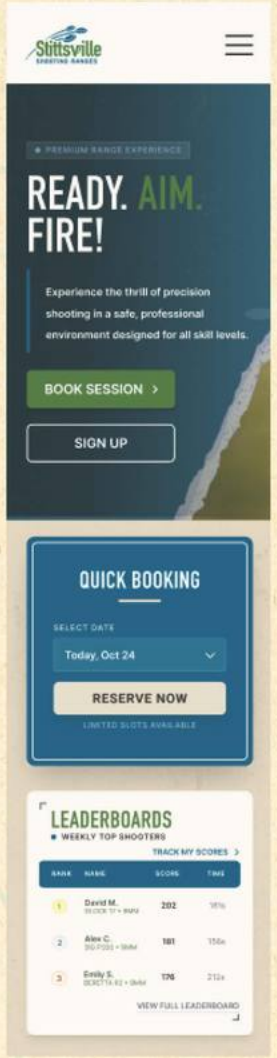

Applied consistent typography and color system

Optimized for responsive experience
