ABOUT ME

DESIONING WITH PURPOSE

I'm an Interactive Media Designer who enjoys turning ideas into meaningful digital experiences. I blend creativity, strategy, and technology to design solutions that are not only visually appealing but also intuitive and user-friendly.

With a strong eye for detail and a passion for storytelling, I bring concepts to life across web, mobile, and multimedia platforms.

CREATIVE

I create unique visuals that connect and inspire.

COLLABORATIVE

I enjoy working with others to bring ideas to life.

FOCUSED

I pay attention to every detail to ensure quality and clarity.

Design is more than just visuals-it's about solving problems, telling stories, and creating experiences that leave a lasting impact. I approach every project with curiosity and empathy, ensuring the final design not only looks great but also serves its purpose.

FOCUS	SKILLS	TOOLS
UX/UI DESIGN	Wireframing, Prototyping, User Research, Usability Testing	Figma, Maze
Web Development	Responsive Design, Front-End Development, CMS	HTML, CSS, JavaScript, WordPress
Digital Media	Photography, Video Editing, Motion Graphics	Photoshop, Premiere Pro, After Effects

UX/UI DESIGN

REMIYA

Project Description
Remiya is a mobile app that turns meaningful videos into interactive memory tiles. Users can upload or import a video, customize the tile, and generate a QR code that plays the memory when scanned.

My Role & Contribution
I worked on the UX/UI design, user flows, prototyping, and usability testing, with a focus on creating a simple, accessible, and intuitive experience.

Skills & Tools
Figma, Maze, wireframing, prototyping, usability testing, user-centered design.

Process & Reflection
Testing helped identify areas where the flow could be simplified. Based on feedback, I refined the interface and navigation to reduce friction and make the experience easier to follow.

WEB DEVELOPMENT

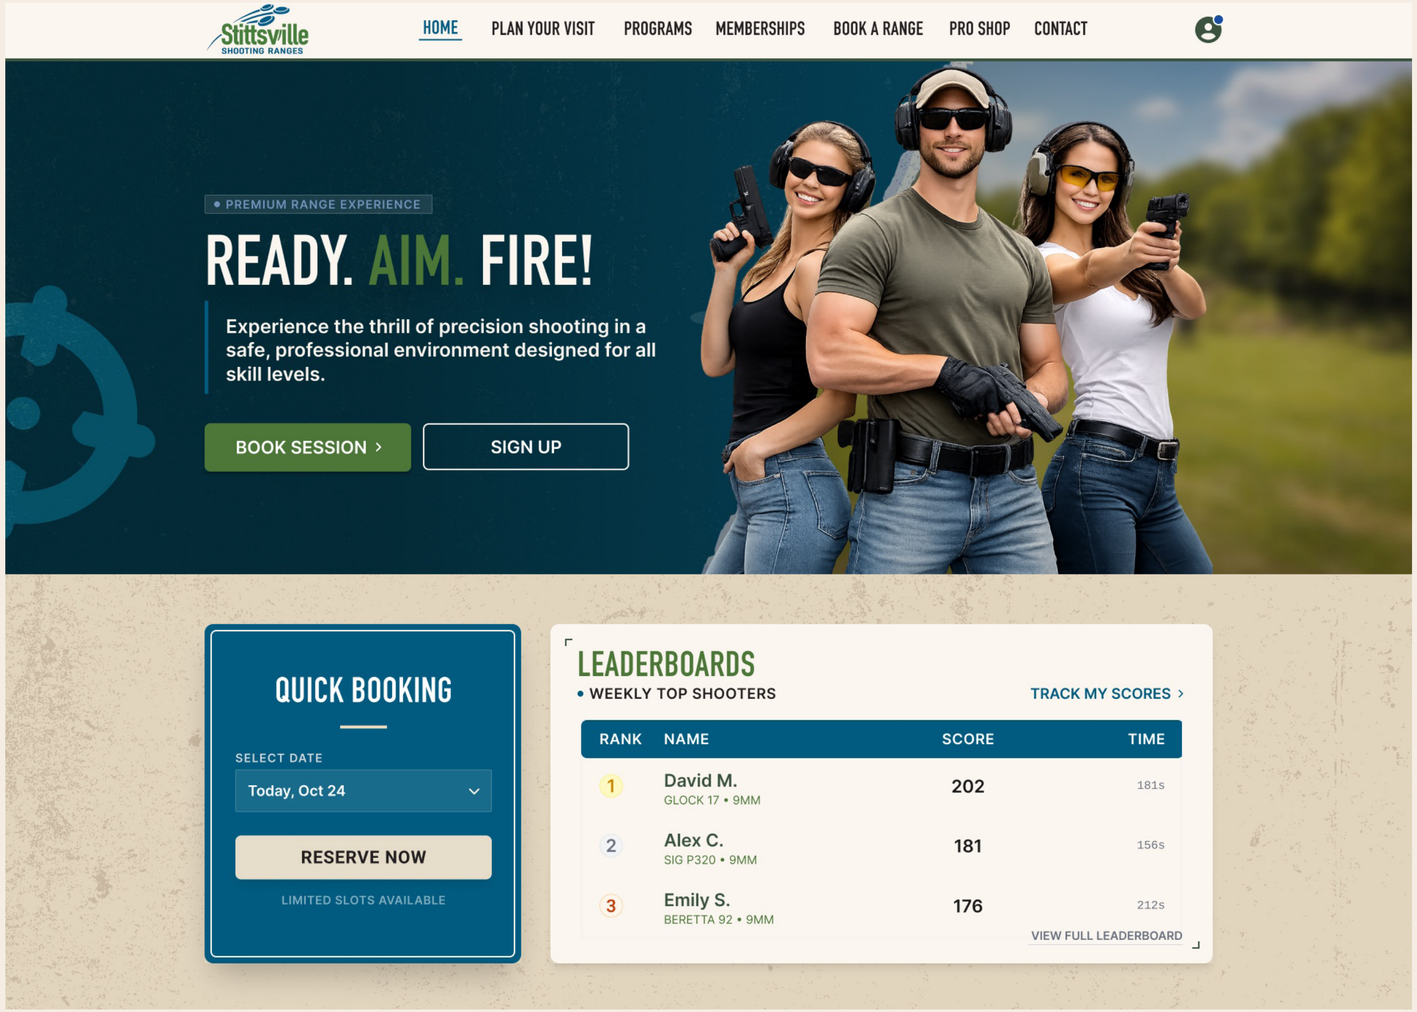
Stittsville Shooting Range Redesign

Project Description
The Stittsville Shooting Range redesign focused on improving usability, visual hierarchy, and navigation through a more modern and responsive website experience.

My Role & Contribution
Working as part of a team, I contributed to planning, page structure, interface design, responsive layouts, and accessibility improvements.

Skills & Tools
Figma, wireframing, responsive design, UX/UI design, accessibility, visual hierarchy.

Process & Reflection
The project moved from research and planning to wireframes and high-fidelity designs. The redesign helped make important information easier to find and created a clearer experience across desktop and mobile.



VIDEOGRAPHY

What After?

Project Description
What After is a documentary-style interview featuring Oluchi, an engineer who continues to pursue her creative interests, including photography, alongside her professional career.

My Role & Contribution
I created the rough cut and completed the final edit, including sound editing and the addition of sound effects.

Skills & Tools
Video editing, rough cutting, final editing, audio editing, sound effects, Premiere Pro.

Process & Reflection
I refined the interview from the initial rough cut into a more polished final sequence, using pacing, audio adjustments, and sound effects to improve clarity and strengthen the storytelling.

PHOTOGRAPHY

Black & White Portrait Series

Project Description
A black-and-white portrait photography series focused on expression, mood, lighting, and visual storytelling.

My Role & Contribution
I managed the full project from planning and creative direction to the photoshoot and final image editing.

Skills & Tools
Photography, creative planning, composition, lighting, directing, photo editing, Photoshop, Lightroom.

Process & Reflection
I planned the visual direction, worked directly with the model during the shoot, and refined the final images through black-and-white editing to create a consistent and expressive series.
