Personal Brand Identity & Application

Digital Portfolio | Due Date: June 15, 2026 | Algonquin college

ALI TAZIKEH

UX/UI Designer & Front-End Developer

BRAND FOUNDATIONS

This personal brand is built around clarity, structure, and practical creativity. It reflects my goal of working as a UX/UI designer and front-end developer, creating digital experiences that are usable, accessible, and visually engaging.

Brand Positioning Statement

I am a detail-oriented UX/UI designer and front-end developer focused on creating accessible, user-centered digital experiences. I combine design thinking and technical skills to build interfaces that are clear, functional, and visually engaging.

Target Role / Industry

UX/UI Designer, Front-End Developer, and Digital Designer

Brand Keywords

Structured | User-Centered | Creative | Reliable | Accessible

Audience

Hiring managers, design agencies, technology companies, startups, small businesses, and clients looking for clean digital design and front-end support.

Brand Voice

Clear, professional, thoughtful, and approachable. The tone is confident but not overly casual, with a focus on problem-solving, usability, and meaningful design.

Mood board

The visual direction for my personal brand is clean, modern, and approachable. It combines soft professional colours, rounded forms, and structured layouts to reflect creativity, reliability, and user-centered design.

BRAND ASSETS

The brand assets establish a consistent visual identity through the use of a custom logo, colour palette, typography, and supporting visual elements. Together, these components create a professional, recognizable, and cohesive brand experience.

Logo

I chose this logo because it represents the long journey of becoming a designer. The flowing line reflects the creative path, showing that growth takes time, consistency, and determination. For me, the logo is a reminder to keep moving forward, stay committed, and never give up. Every time I look at it, it inspires me to continue improving as a designer. The logo is also flexible, with three additional variations available for different uses and backgrounds.

ALI TAZIKEH

#67637C	Dusty Lavender
#8B5C67	Smoky Rose
#C7B999	Khaki Beige
#F1D1AB	Soft Apricot

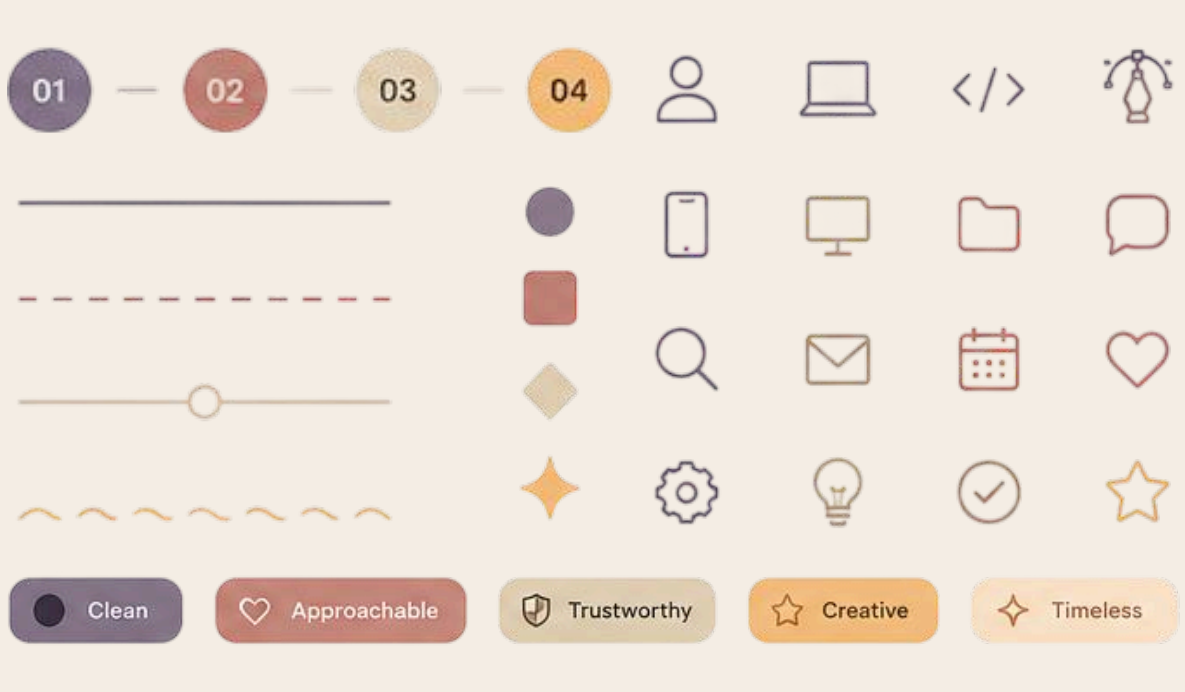
Colour Palette

I chose this colour palette because I am drawn to vintage and retro-inspired colours. The muted tones create a sense of trust, warmth, and professionalism while adding personality to the brand. The combination of these colours helps balance a modern design approach with a timeless aesthetic, reflecting both creativity and good design.

Typography

I chose Poppins and Inter because they are modern, clean, and highly readable typefaces that work well across digital platforms. Poppins provides strong visual hierarchy for headings, while Inter ensures clarity and accessibility for body text. Together, they create a professional and user-friendly typography system that reflects my focus on UX/UI design and front-end development.

H1:	Poppins Bold, 64–72 px
H2:	Poppins SemiBold, 40–48 px
H3:	Poppins SemiBold, 28–32 px
Body Text:	Inter Regular, 18–20 px



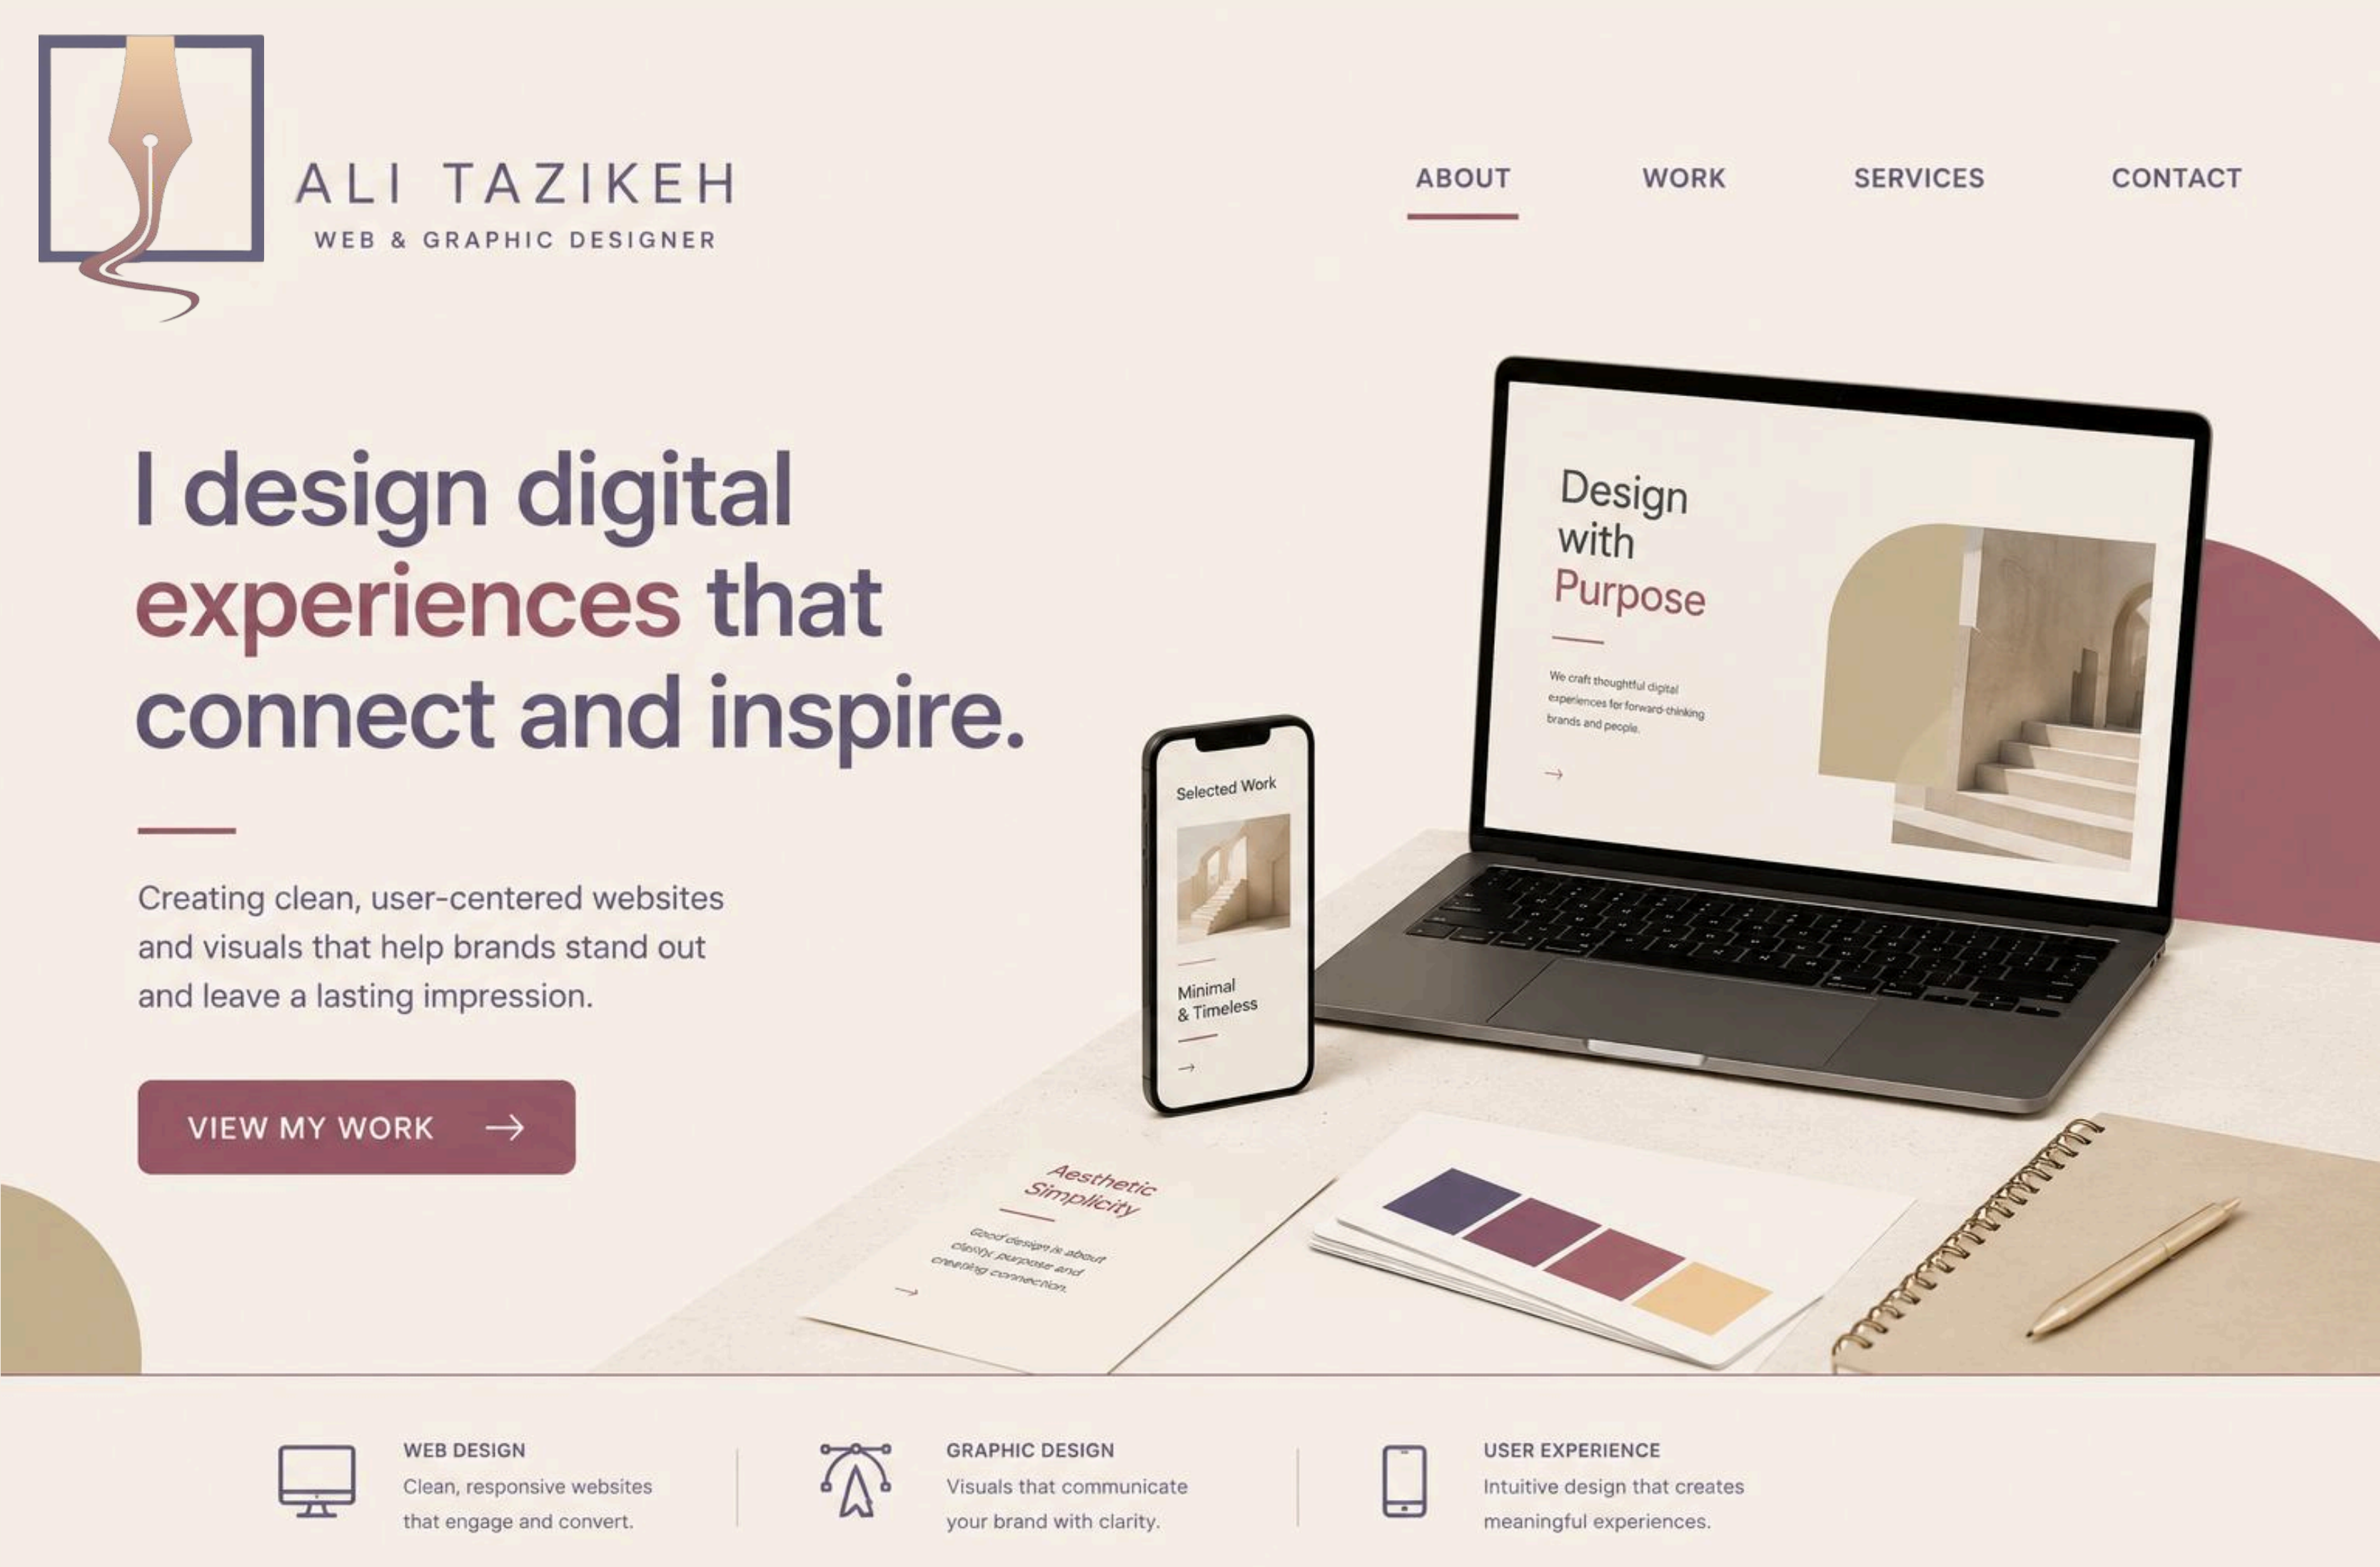
Supporting Visual Elements

The supporting visual elements include custom icons, abstract shapes, dividers, and graphic patterns inspired by the brand's retro-modern aesthetic. These elements help create consistency across digital and print applications while reinforcing the brand's creative and professional personality.

BRAND APPLICATION

The brand is applied to a portfolio homepage to show how the visual identity works in a real professional context. The layout uses consistent colours, typography, rounded elements, and clear hierarchy to present my name, role, featured projects, skills, and contact information in a clean and user-friendly way.

Portfolio landing page



I design digital experiences that connect and inspire.

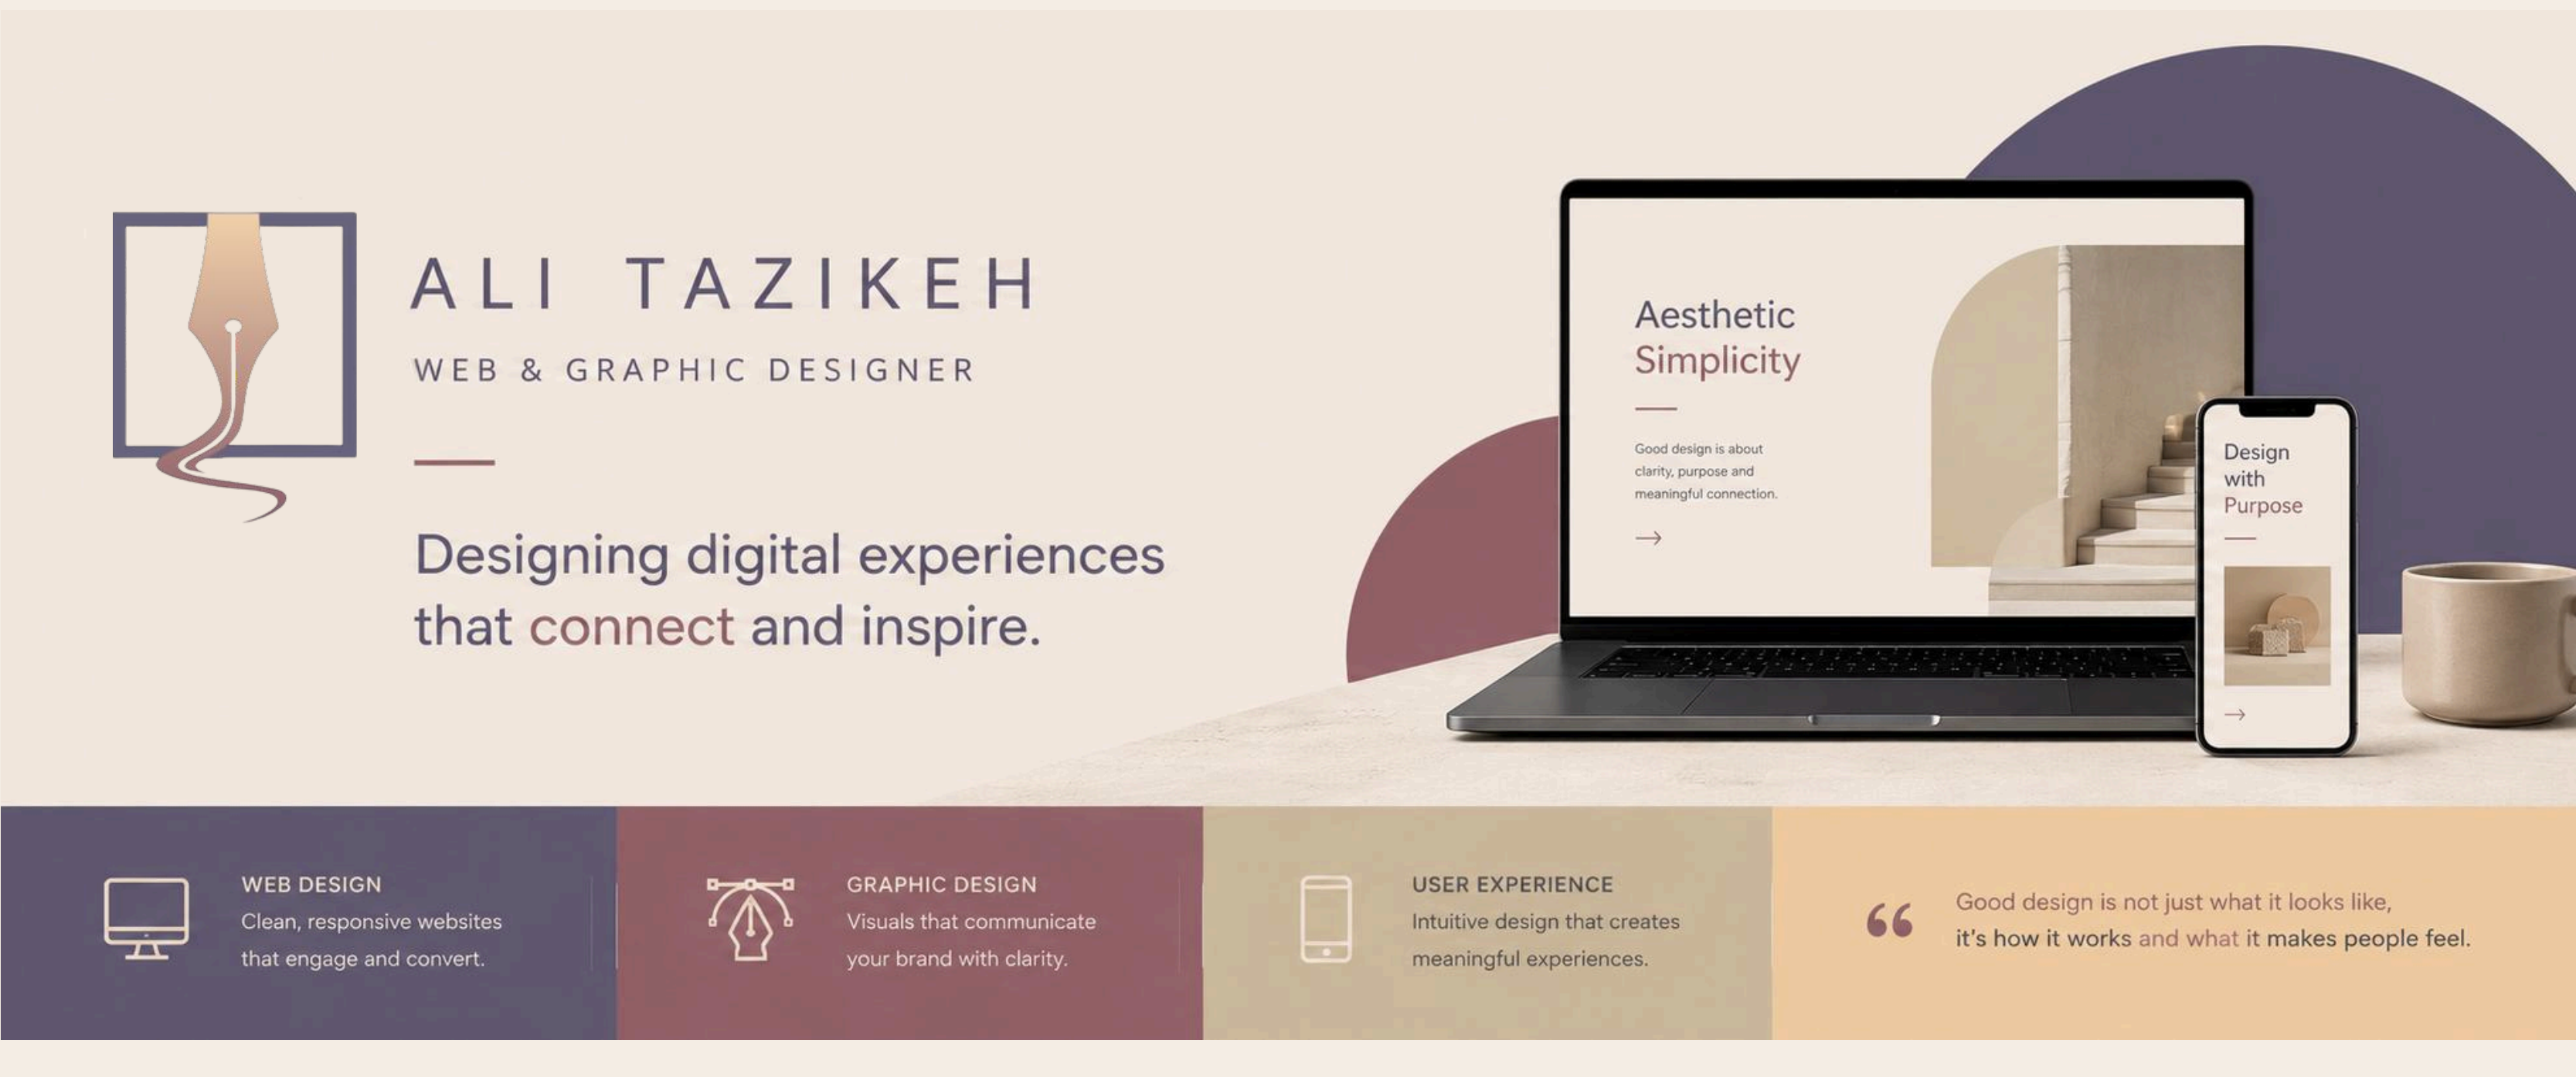
Creating clean, user-centered websites and visuals that help brands stand out and leave a lasting impression.

WEB DESIGN
Clean, responsive websites that engage and convert.

GRAPHIC DESIGN
Visuals that communicate your brand with clarity.

USER EXPERIENCE
Intuitive design that creates meaningful experiences.

LinkedIn banner



Designing digital experiences that connect and inspire.

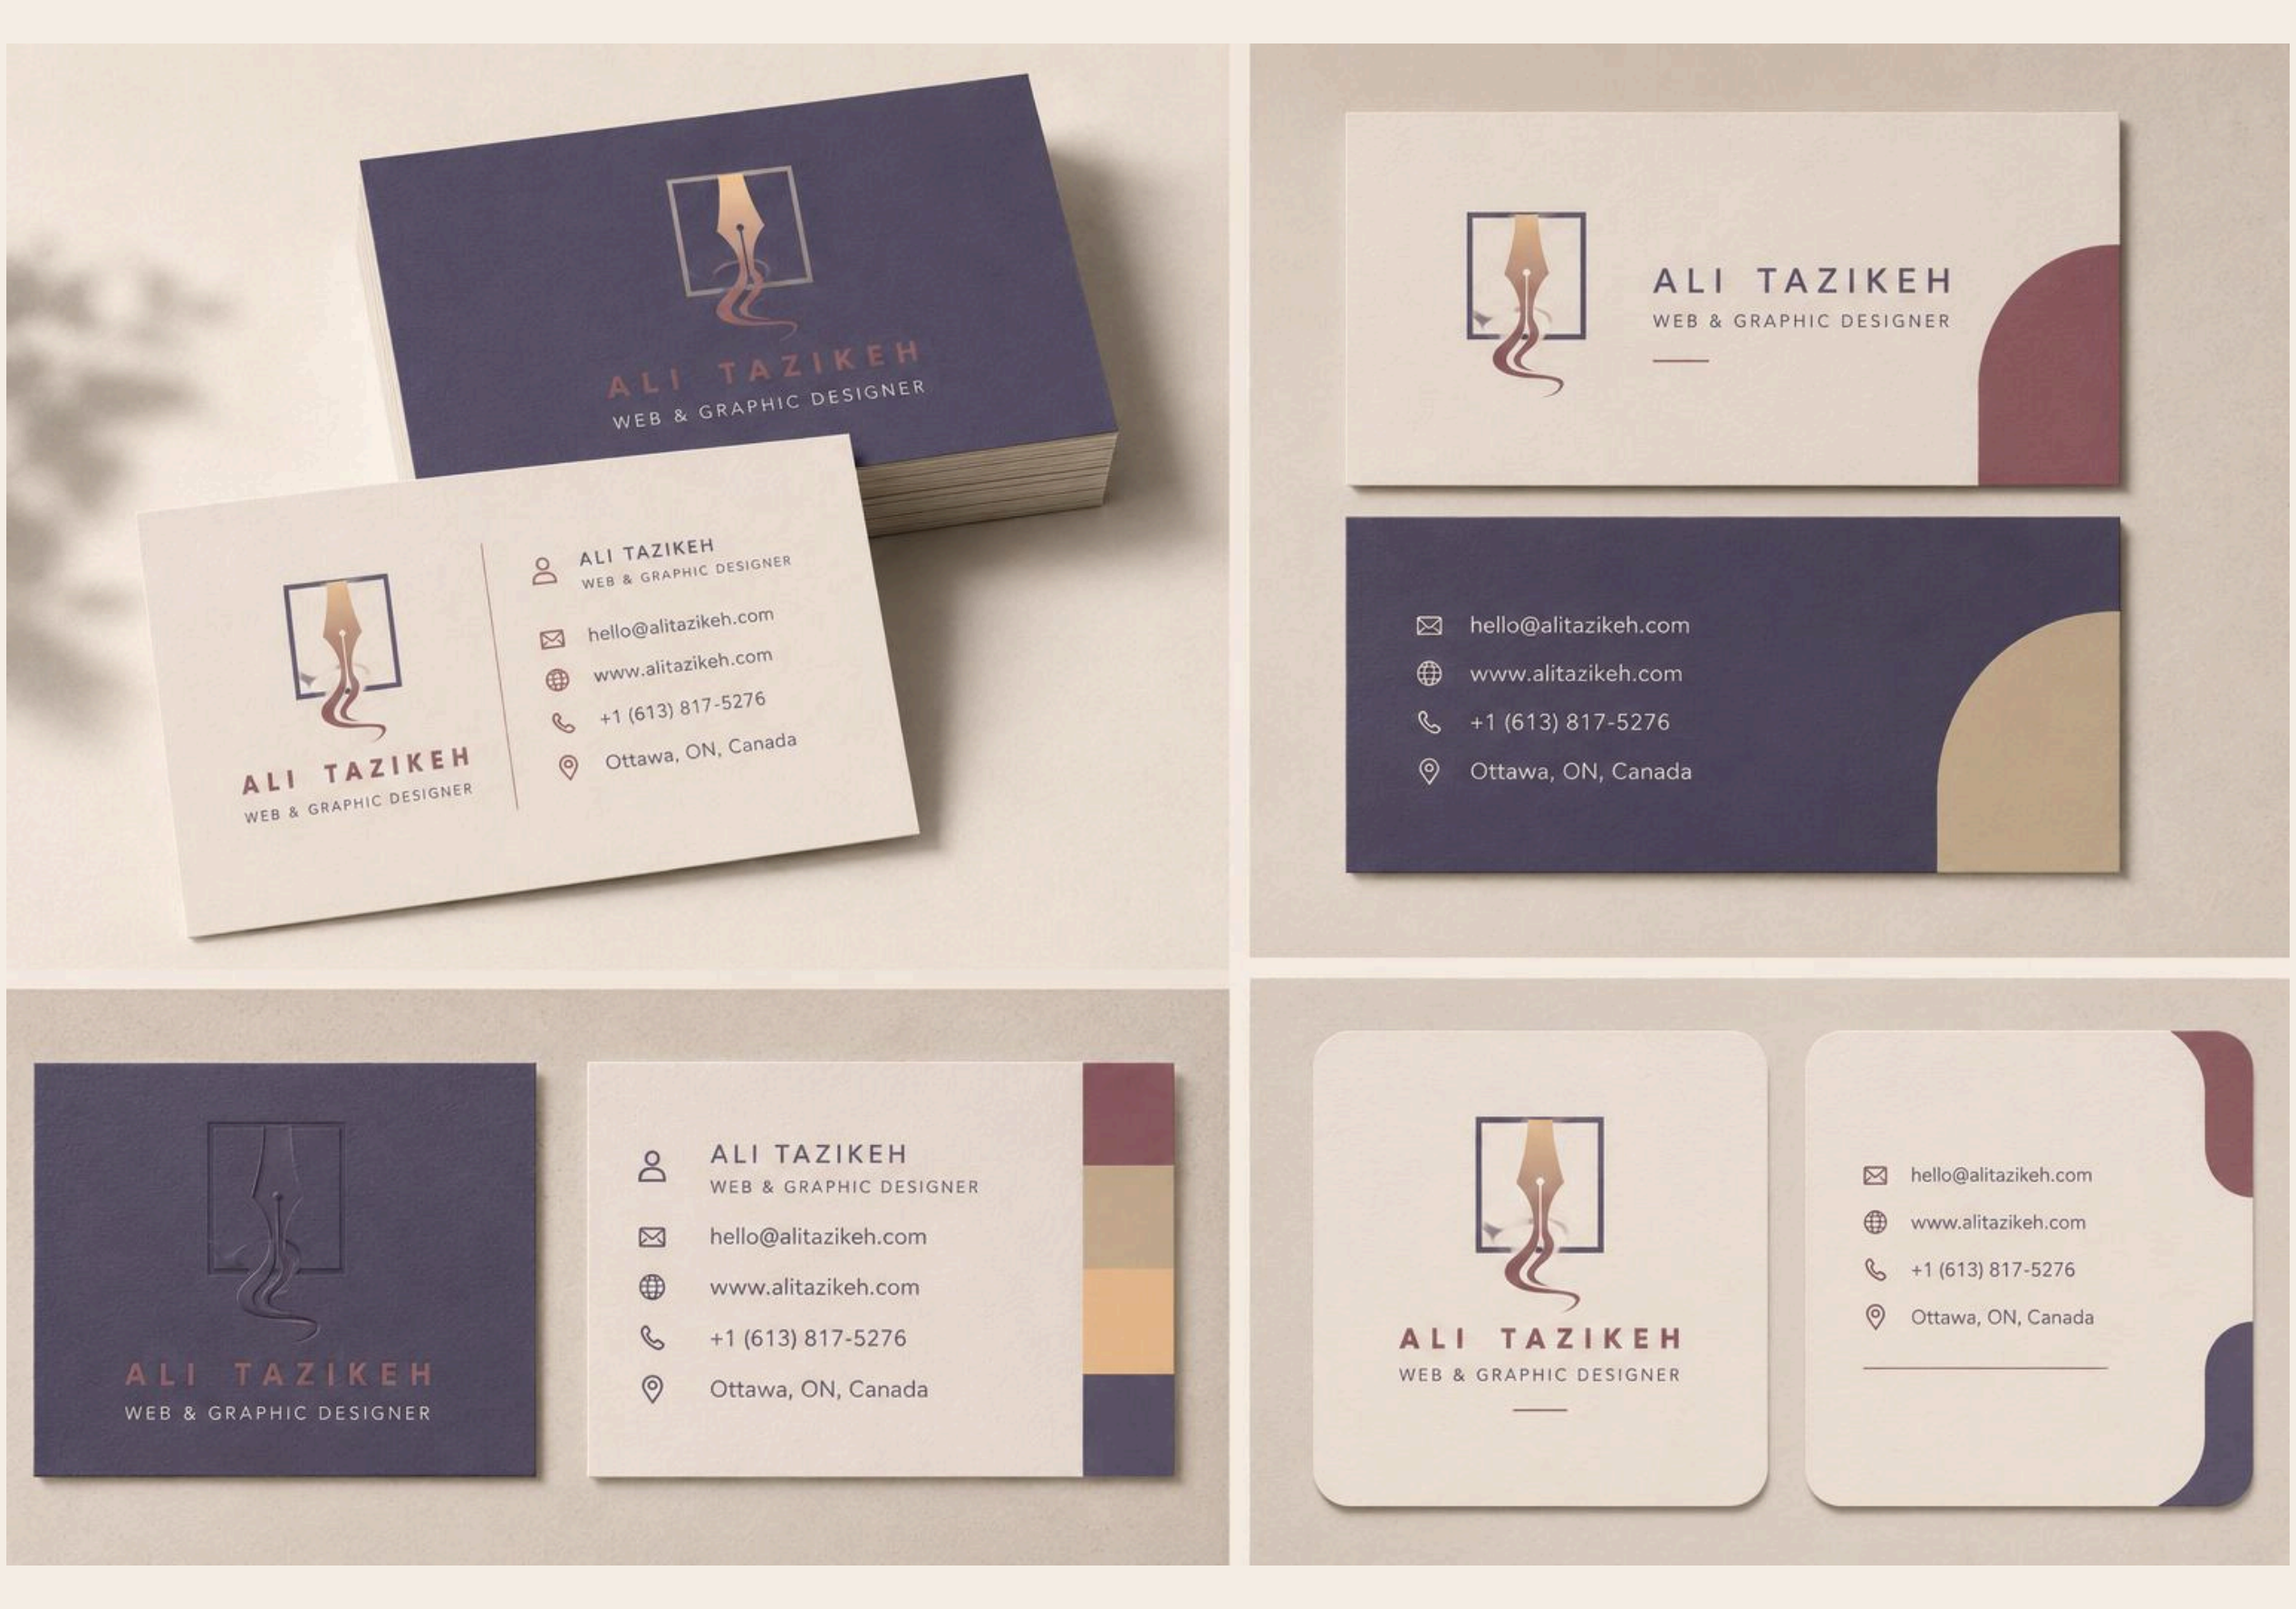
WEB DESIGN
Clean, responsive websites that engage and convert.

GRAPHIC DESIGN
Visuals that communicate your brand with clarity.

USER EXPERIENCE
Intuitive design that creates meaningful experiences.

“Good design is not just what it looks like, it's how it works and what it makes people feel.

Business Card



INVOICE

This invoice represents the design and development of a professional portfolio landing page. The project includes research, wireframing, UI design, responsive layout creation, front-end development, revisions, and final delivery. The invoice demonstrates how the brand identity can be applied to professional business documents while maintaining consistency, clarity, and visual organization.
