AWARD

Participants' Choice Award
TALLYA, Technology Project Showcase (Summer 2026)

ABOUT ME

Interactive Media Design graduate specializing in UX/UI, mobile app design, responsive web design, and front-end development. Brings a detail-oriented, user-centred approach to problem-solving and quickly adapts to new technologies and workflows.

SELECTED PROJECTS

TALLYA Safety App | Team Lead & UX/UI Designer

- Led the design team and developed mobile app interfaces in Figma.
- Created wireframes, prototypes, and high-fidelity screens.
- Applied accessibility and user-centered design principles.

Remiya | UX/UI Designer

- Designed intuitive mobile and tablet interfaces using Figma.
- Developed user personas, user flows, and interactive prototypes.
- Created a cohesive design system with reusable UI components.

AI Business Idea Generator | Front-End Developer

- Designed responsive UI layouts from wireframes to high-fidelity prototypes.
- Developed an interactive form with validation and error handling.
- Integrated Google Gemini using an API key to generate personalized business ideas.

Stittsville Shooting Ranges Website Redesign | Team Lead & UX/UI Designer

- Led the redesign of a responsive website with a multidisciplinary team.
- Coordinated project planning, communication, and deliverables.
- Created wireframes and UI designs focused on usability and accessibility.

EXPERIENCE

Experience Designer – DarRo.ir | 2018–2022

Improved the player experience across escape room activities while managing social media content and visual communication.

Contract Graphic Designer – SINIX Media Group | 2020

Created print-ready graphics and visual materials based on client and production requirements.

Crew Dispatcher – Pars 2000 Company | 2020–2025, 2026–Present

Coordinate crew scheduling, assignments, communications, and day-to-day operational problem-solving.
